

Public scoping meeting for proposed State Route 801 (State Route 85 to proposed Loop 303)

Public Meeting
January 24
6-8 p.m.

The Arizona Department of Transportation and the Federal Highway Administration are conducting a public scoping meeting to introduce the next study phase of the State Route 801 proposed freeway corridor in western Maricopa County. This proposed freeway would provide another east-west route to help relieve congestion on Interstate 10. This phase of the SR 801 study involves evaluating the connection between SR 85 and the proposed Loop 303. This is one of several projects associated with the passage of Proposition 400 that are proposed to improve east-west traffic flow in the West Valley.

The purpose of the public scoping meeting is to present the proposed project for SR 801 (SR 85 to the proposed Loop 303) and gather public input. Representatives from the ADOT study team will be present to answer your questions during the meeting.
